SOCIAL JUSTICE

From Theory to Action!

Broward College Academy for Excellence

The BCAE Social Justice Research Fall Term cohort develops and enhances the academic experiences and leadership skills of first-time-in-college students through a social justice perspective and a team-based approach.

Students begin by identifying social justice issues affecting local and global communities.

After designing research frameworks, students collect, analyze, and interpret data. Upon completion of their projects, students present their research results to the College community and to the community at large.

Benefits of Social Justice Research: Theory to Action

- Earn 16 credits* in one semester and accelerate your course of study
- Learn from faculty mentors
- Build discipline and a strong foundation for collegiate studies
- Experience a balanced team-based approach to teaching and learning
- Work in a cohort model

* Eight (8) transfer credits to other institutions.
The remaining eight (8) are in college preparatory coursework.

College Success

Students participating in the BCAE Social Justice Program will be able to translate theory into action through research and teamwork.
